

CLIFFORD ARENA RULES

Please be mindful of the new rules in place to protect our new turf. Treat it like Grandma's new white living room carpeting!

- The door on the north side of the building that opens directly into Clifford is no longer to be used for entry or exit - it is an emergency exit only. Everyone will need to use the main entrance on the south side of the building.
- The turf area between Astro and Clifford will be used for crating for Clifford and Astro classes and ring times. There is plenty of space in this area for crating.
- Everyone will be walking down the hallway past the Training Room. Be mindful of other dogs and handlers. You may need to bring your equipment (crate, training bag, etc.) in first, then go back out to potty your dog and bring them in. Please be kind and courteous when passing other dogs and handlers in this walkway. Waiting at one end while someone else walks past is a great idea to avoid any dog-dog encounters!
- Soiling/Accident policies have been updated. Forms must be filled out and location noted along with your payment. Forms and envelopes are in clean-up buckets. Please see the policy page on our website for all the information, including fee schedule.
- Treats should not be crumbly or greasy. Please do not toss treats directly on the turf. A vessel (such as a Treat Hugger, Lotus Ball, Treat N Train, etc.) must be used to enclose the treat. A target may be used to place a treat.
- Only CLEAN and DRY shoes may be worn on the turf. No spiked or metal spiked shoes may be worn. Rubber type cleats, such as Salomon's, are acceptable. Please change into turf shoes (shoes used only indoors) before stepping into the turf in the Clifford Arena.
- No food or drinks, besides water, are permitted on the turf. Water must be in a screw top or fully closable water receptacle. Please do not place food or drinks on the half wall, there is a good chance it may get knocked onto the turf.
- Only approved chairs (CSZ owned stackable chairs) may be used on the turf. Do not drag equipment on the turf, it is likely the turf will rip. Please ask for assistance if you can't move a piece of equipment on your own.

Thank you for helping us to protect the new turf investment!
